JOURNAL OF ANATOMY

CONDUCTED ON BEHALF OF THE ANATOMICAL SOCIETY
OF GREAT BRITAIN AND IRELAND BY

R. E. COUPLAND
T. W. GLENISTER
E. G. GRAY
F. R. JOHNSON
R. M. H. McMINN
A. R. MUIR
G. J. ROMANES
R. J. SCOTHORNE
J. W. SMITH
D. BRYNMOR THOMAS

D. C. SINCLAIR (EDITOR)

VOLUME 110
OCTOBER–DECEMBER 1971

CAMBRIDGE
AT THE UNIVERSITY PRESS
1971

PUBLISHED BY
THE SYNDICS OF THE CAMBRIDGE UNIVERSITY PRESS
Bentley House, 200 Euston Road, London, N.W.1
American Branch: 32 East 57th Street, New York, N.Y. 10022

Printed in Great Britain at the University Printing House, Cambridge

Contents

PART 1 – OCTOBER 1971

PAGE

Elastogenesis in the developing chick lung: a light and electron microscopical study. By ALED W. JONES and A. J. BARSON 1

Immunological competence of the haemal node. By D. R. TURNER . . 17

Nasal swell-bodies and cyclic changes in the air passage of the rat and rabbit nose. By F. BOJSEN-MØLLER and J. FAHRENKRUG 25

Histological observations in the soft palate of the albino rat. By P. CLEATON-JONES 39

Innervation of the nasopharynx in *Macaca fascicularis*. By K. LEELA, R. KANAGASUNTHERAM and M. M. AHMED 49

Histochemical and electron microscopic observations on the innervation of the upper segment of the mammalian ureter. By J. S. DIXON and J. A. GOSLING 57

Follicular growth and innervation in hairless mice. By M. J. T. FITZGERALD, J. P. NOLAN and M. N. O'NEILL 67

Histochemical study of ubiquinones in the central nervous system of mice. By F. HERNÁNDEZ, J. R. IGLESIAS and J. MARTÍNEZ DE MORENTIN . 73

Occurrence and distribution of monoamine-containing neurons in the brain of the painted turtle, *Chrysemys picta*. By A. PARENT and L. J. POIRIER 81

Membranous inclusions in the retinal pigment epithelium: phagosomes and myeloid bodies. By J. MARSHALL and P. L. ANSELL 91

Certain observations on the olfactory pathway. By J. L. PRICE and T. P. S. POWELL 105

BOOK REVIEWS 127

PROCEEDINGS OF THE ANATOMICAL SOCIETY OF GREAT BRITAIN AND IRELAND, JULY 1971 131

PART 2 – NOVEMBER 1971

Electron microscope observations upon the conus medullaris and filum terminale of human fetuses. By H. J. GAMBLE 173

A fine structural and electron histochemical study of axon terminals in the rat superior cervical ganglion after acute and chronic preganglionic denervation. By F. JOÓ, J. D. LEVER, CAROLINE IVENS, D. R. MOTTRAM and R. PRESLEY 181

Quantitative anatomical measurements on single isolated fibres from the cat spinal cord. By W. I. MCDONALD and G. D. OHLRICH 191

PAGE

The use of cholinesterase techniques to study topographical localization in the hypoglossal nucleus of the rat. By P. R. Lewis, B. A. Flumerfelt and C. C. D. Shute 203

Proprioceptive innervation of the tongue. By A. K. Adatia and E. N. Gehring 215

Growth and degeneration of motor end-plates in normal cat hind limb muscles. By A. R. Tuffery 221

Sarcomere length and fibre diameter distributions in four different mouse skeletal muscles. By P. V. J. Hegarty and A. C. Hooper 249

The ultrastructure of normal and Purkinje cells of the fowl heart. By T. M. Scott 259

The volume of the human pharyngeal hypophysis in relation to age and sex. By Philomena McGrath 275

The functional relationships of mitochondria in the rat adrenal cortex. By D. Kadioglu and R. G. Harrison 283

The differentiation of transplanted haematopoietic cells derived from bone marrow, spleen and fetal liver. By D. Brynmor Thomas 297

The Harderian gland of the domestic fowl. I. Histology, with reference to the genesis of plasma cells and Russell bodies. By P. A. L. Wight, R. B. Burns, B. Rothwell and G. M. MacKenzie 307

Reviews 317

Books Received 321

PART 3 – DECEMBER 1971

The Harderian glands of the domestic fowl. II. Histochemistry. By P. A. L. Wight, G. M. MacKenzie, B. Rothwell and R. B. Burns . . . 323

The distribution of muscle fibre types in fasciculi and their analysis. By N. T. James 335

Anatomy of the arterial supply to the hip joint of the ox. By C. R. Howlett and M. M. Bryden 343

Effects of thyroid and parathyroid deficiency on bone remodelling distal to a venous tourniquet. By Patrick J. Kelly 349

Ciliated fibroblasts in rabbit ear chambers. By B. E. Brooker, L. G. Goodwin and M. W. Guy 363

Cilia in cell-cultured fibroblasts. III. Relationship between mitotic activity and cilium frequency in mouse 3T6 fibroblasts. By D. N. Wheatley . 367

Deformities of the renal tract associated with spina bifida in trypan blue treated rat embryos. By R. G. Lendon and Mehroo Forbes . . 383

PAGE

The capacity of fetal and neonatal renal tissues to regenerate and differentiate in a heterotopic allogeneic subcutaneous tissue site in the rat. By T. I. Barakat and R. G. Harrison 393

The fine structure of the intra-arterial cushions at the origins of the juxta-medullary afferent arterioles in the rat kidney. By D. B. Moffat and Margaret Creasey 409

Oxidative enzyme histochemistry of immature neuroglia during myelination. By M. J. Blunt, P. B. Paisley and C. P. Wendell-Smith 421

Correlations between formol fluorescence and acetylcholinesterase (AChE) staining in the superior cervical ganglion of normal rat, pig and sheep. By A. Yamauchi and J. D. Lever 435

Implantation of the rabbit blastocyst: the invasive phase. By H. W. Steer . 445

Nucleolar displacement during chromatolysis. A quantitative study on the hypoglossal nucleus of the rat. By E. Lowell Rees 463
